

FAMILY TO FAMILY NETWORK

About Us

The Family to Family Network is a statewide parent support network that is designed to educate, strengthen, and support families of persons with disabilities, especially those who are on the wait list or in DSPD services. Volunteer network leaders are parents of individuals with special needs and link families to local resources, services, and disability-friendly events.

Our Mission

To educate, strengthen, and support families of persons with disabilities.

GET INVOLVED!

Connect with other families in person, on social media, through events, and in local activities. We are always looking for new leaders and volunteers!

The Family to Family Network is a volunteer program of the Utah Parent Center, funded by the Division of Services for People with Disabilities (DSPD) and community sponsors.
